

Arizona Department of Transportation

ENGINEERING CONSULTANTS SECTION

MEMORANDUM

To: ALL CONSULTANTS
ADOT PROJECT MANAGERS

Date: May 2, 2005

From: CARRIE SATTERLEE
Engineering Consultants Section
(602)712-7532

Subject: UPCOMING PROJECTS LISTING

Below is a revised list of projects that we anticipate will require consultant services. This listing reflects our best estimate as of this date. It is subject to change and is intended only to provide a projection of future consultant use projects. For those projects that have been identified as multiple advertisements, only one project will be used when writing your proposal. We will continue to update, as more projects become available.

A quarter is identified as:

- 4th quarter (FY-05) April - June
- 1st quarter (FY06) July - September
- 2nd quarter (FY06) October - December
- 3rd quarter (FY06) January – March

This list will assist you in planning for those projects on which you plan to submit Statements of Qualifications.

At this time, we would also like to remind all firms interested in responding to one of our advertisements to be sure to follow the format outlined for that specific SOQ package. Each SOQ package was prepared based on the ADOT Project Manager's requirements and the contract type. Proposals received not following the correct format or exceeding the page limit will be rejected.

We advertise all our official notices in the Legal Advertising Section of the Tribune Newspapers (Mesa Tribune, Chandler Arizonan, Tempe Daily News). We also e-mail courtesy copies of our current advertisements, upcoming projects, information bulletins, etc. You may also check our Web site at <http://www.azdot.gov/highways/ecs/>.

If you should have any further questions, please feel free to contact Engineering Consultants Section.
